

VACCINES DO MORE **HARM** THAN GOOD

Did you know...

There are **GMOs** in vaccines. Genetically modified animal cells and yeast are in most vaccines.

Formaldehyde is an industrial pesticide and known to cause **cancer**. It is used in vaccines. **No amount is safe** for injection.

Vaccines have **never** been studied long term or for safety in combination, yet multiple doses are given per doctor visit.

The US gives **twice** as many vaccines as most developed countries and also has one of the **highest infant death rates** in the developed world.

Vaccines contain human fetal cells from **aborted babies**

Aluminum is an industrial by-product and known neurotoxin at vaccine doses -- it is the main additive in some vaccines.

The **chemicals** in vaccines are linked to neurological and autoimmune issues like autism, ADHD, speech delays, asthma, lupus, crohn's disease, type 1 diabetes and food allergies.

There are more than **100 bills in 38 states** pushing for mandatory vaccinations for children and adults. Please get involved.

When there is a **RISK**,
there must be a **CHOICE**.
